# Orkim Takes Delivery Of China Made Petroleum Tanker Ahead Of Schedule

By **Editor** *November 3, 2026*

Share

Orkim Berhad announced that its wholly-owned subsidiary, Orkim Marine Sdn Bhd, took delivery of Orkim Jade at Fujian Southeast Shipyard, ahead of its scheduled delivery date.

Orkim Jade is the newest Malaysian-registered clean petroleum products tanker with a deadweight tonnage ("DWT") of 14,500 metric tonnes. With the addition of Orkim Jade, the Group's fleet has expanded to 21 vessels, with total load capacity increasing by 5.4% to 281,534 DWT. The vessel is powered by high-efficiency engines and is the first vessel integrated with an onboard Nitrogen Generation System in its fleet.

The vessel is expected to commence commercial operations in November 2026 and has secured a long-term Consecutive Voyage Charter contract with Shell Malaysia Trading Sdn Bhd and Shell Timur Sdn Bhd in September 2024. The contract comprises an initial firm period of 3 years, with extension options of a further 3 years and an additional 2 years, potentially extending the charter arrangement until 2035.
